Law.

From Washington. Washington, May 5 .- The State Department has furnished the Press with the official correspondence between Ministers Faulkner and Thouvenal on American affairs. Mr. Faulkner informed the French Minister that the President entertained full confidence of a speedy restoration of the harmony and unity of the Government; that events might introduce temporar inconvenience to the French subjects, but that all injury should be indemnified; that the President thought it not improbable that an appeal might be made to foreign Governments, by the Confederates, for the recognition of their independence. When such an appeal is made it shall be opposed by

the Ministers who may represent the United Mr. Faulkner said the only request he had to make was that no proposition recognizing the dissolution of the Union should be considered by France till the arrival of the new minister, who would be fully instructed.

M. Thouvenal replied that no application was yet made. The French Government never acted hastily on such questions. He assured Mr. Faulkner that o precipitate action would be taken on the subject by the Emperor. He said it was the established usage to recognize de facto governments when a proper case is made out. In reply to a question Mr. Faulkner said he thought that force would not be used, and the only solution was a modification of the Constitution, or a peace-able acquiescence in the claim of separate sovereignty. M. Thouvenal thought the employment of

In the Secretary of State's instruction to Miniter Dayton, he is to consider the instructions to the former Minister by the President as unchangeable; notwithstanding any opinion expressed or recorded by his predecessor, to assure Mr. Thouvenal that no ifference of opinion exists between the President and his Cabinet; that the path is plainly marked out by stern necessity, and that not at the hands of this Administration is the Government to end. France's assurance not to take any hasty steps. is considered satisfactory, although attended by reservations. Mr. Seward says, in reply to Mr. Faulkner's answer that force would not be used, &c. The time when these questions had any pertinency has passed. Insurgents, with deadly war, have tried to compel the Government to recognize the dismem-berment of the Union. We have accepted this civil war as an inevitable necessity. The Constitutional remedies are still open to the insurgents, and will remain so. You cannot be too decided in making an answer to the French Government that no idea does or will exist of suffering a dissolution of the Union to take place in any way, peaceably or forcibly.

New York, May 6 .- A dispatch to the Times from Baltimore says the Legislature re-assembled to day. The Secessionists, it is said, will attempt to call a convention. If they do, the Union men will insist that the question of "Convention" or "No Convention" shall be referred to the people at the election for delegates. A Baltimorean had an interview with Gen. ABOUT FORT PICKENS!

Special Dispatch to the Cincinnati Gazette. Washington, May 5 .- The President has accepted the two regiments of Kentucky Volunteers tendered by Col. Terrell and Col. Guthrie. They are acepted for the war, without special time being amed for their enlistment. It is intended to raise a rigade in that State, and the command will be tendered to Muj. Anderson. Virginia forces, six hundred strong, last night,

THE CHICAGO ARTILLERY REFUSE TO TAKE THE OATH.

Correspondence of the Cincinnati Garette. CAIRO, May 3, P. M .- Everything goes on in a quiet and orderly manner at "Camp Defiance," as the en-compment here is new called. One of the troops was shot Wednesday night, in an altercation with a citizen, whose wife he was attempting to abuse. Verdict of everybody-served him right. Colonel Paine's full regiment arrived from Springfield yesterday, increasing the force to over 4,000 men. There are few sick, comparatively. Two Chicago companies left for Springfield, to be mustered into other regiments. It is possible that a regiment may be encamped at Mound City, a very quiet and pleasant place for an encampment.

pearer to Cairo than Corinth, Miss., where there is a large body. The people of Kentucky and Missouri are quiet, and do not contemplate any mischief.

Business at the river is as dull as can be. A few small shipments are made to the South, but nothing worthy of note. St. Louis and Louisville boats pass els, and deal summarily with all hereafter found Advanced posts are to be established within a down occasionally, all fully loaded. A Nashville boat, the E Howard, went down this morning full of freight, without landing. The river is falling fast, and the weather is clear and pleasant. Large numbers of passengers arrive from the South by every boat. The Sir Wm. Wallace, from St. Louis for Pittsburg, had a cannon fired across her bow at 3½ P. M. to-day, as she was coming down the Mississippi on the Missouri side, and has just landed. There has probably been some strange mistake about it, as she has freight for Cairo!

ral buildings outside of the Arsenal walls are occupied by the United States troops, and a heavy turf breastwork, pierced for four guns, has been erected, those on this side. In reply to my inquiries, the commanding officer at Cairo stated that he was then acting and had been acting under the orders of the Governor of Illinois. but expected very soon to be acting under the au-thority of the United States; that he had made no seizures of boats or property except under specis instructions; that arms or ammunition belonging t the State of Kentucky, in passing from a United States arsemal would not be seized under the intructions under which he then acted. I saked if arms or ammunition, the property of citizens of Kentucky, and procured for their own use, would under his instructions, be seized or de-tained at Cairo. He replied that they would not,

but qualified his reply by stating, that it would de-pend upon the point to which they might be destin-ed; if for instance they were destined to Columbus, in Kentucky, he would not permit such property to pass his post. He further qualified his answe by remarking that he wished to be fully understood and that "it would not be safe" for any large qua titles of arms or ammunition, however desired, to attempt to pass his post. I asked him, in reply, if I nois claimed the right to decide what citizens of sentucky should, and what citizens should not be entitled to receive property which they had provi-ded for their own use? He replied that no such claim was asserted, but that he would seize such arms on the principle of self-defence, claiming the right to detain arms which he had reason to think would be used against himself. I asked if there was any reason to believe that any hostile purpose was designed by the citi-zens of Columbus or, its vicinity! He replied that

he was satisfied such purpose was designed, both by the citizens of Columbus and persons from other States co-operating with them; that his post had been threatened from that quarter, and that the cit-izens of that place had gone so far as to threaten o prevent the trips of the steamer which connect ed that point with Cairo. I asked if he had notified the authorities of Kentucky of the hostile purpose of its citizens, or of the designs of the citizens of other States to use her territory for aggressive pur-poses? He replied that he had not. I suggested that such a course would be advisable before adopt ing towards the citizens of Kentucky the policy which he 'indicated; that the policy of Kentucky was not to intermeddle with the adairs of any of her neighbors; and that she felt competent to preventaggressions on her neighbors through her ter ritory, if she were notified that such aggression was designed; and that she did not recognize the right of other parties to pass through her territories for the purpose of redressing their grievances against each other.' He replied that the question of such a right would involve the discussion of many points;-to which I replied that the question as between Kentucky and Illinois did not admit of argument; that the citizens of Kentucky recogniz so authority in the Governor of Illinois to invade the jurisdiction of Kentucky or to interfere with the rights of her citizens.
